Where Quality Counts

Providing you with stylish,
quality appliances that will
give you years of enjoyment.

ILVE...

Built with an exceptionally high level of detail, reliability and functionality. ILVE have one of the largest selection of Range Cookers on the market with sizes from 60cm all the way up to the mighty 150cm.

... RANGE COOKERS

EVERHOT...

The energy efficient traditional cooking range, with its hand-crafted good looks and quality cooking, epitomises a relaxed, homely lifestyle in town or country. Designed to provide both cooking and room heat. You can bake, roast, slow cook and grill to perfection providing gentle background heat for open plan living.

RANGEMASTER...

One of Europe's best loved range cooker brands. The world's first range cooker was made by Rangemaster in 1830 on the very same site in Royal Leamington Spa where they continue to design and manufacture all their 90cm, 100cm and 110cm range cookers to this day. Range cookers are at the heart of more homes than any other, helping to create memorable family moments. Rangemaster cookers are the essential ingredient to a perfect kitchen.

LACANCHE...

Inspired by world renowned chefs and their expert kitchens, each Lacanche Range is produced with simplicity and sophistication in mind, garnering aesthetic admiration as well as a loyal trust in its unwavering reliability. Combining the timeless durability of porcelain enamel, stainless steel and cast iron, Lacanche Ranges may be customised in colour, finish and configuration.

V-ZUG...

V-ZUG beautifully designed ovens are equipped with the latest technology but are simple to use. These Swiss built appliances make cooking and baking a delight. A highlight of the range is the precision built combi steam oven which will create the ultimate gourmet dishes. These appliances fit seamlessly into the kitchen to reflect but not to dominate the environment, in addition they are effortless to clean with features such as pyrolysis.

...OVENS

WOLF...

Built to serve your household for decades. When it comes to building ovens, Wolf make no compromises with their state of the art technology. Bake, roast, and broil with the confidence of Wolf built-in ovens. Wolf convection ovens, or combination ovens with convection and steam, offer intuitive controls and consistent temperatures to ensure every meal is predictably remarkable.

SIEMENS ...

Bringing cutting-edge technology into the kitchen with WiFi enabled Siemens Home Connect. Enjoy cooking your favourite dishes with the latest selection of innovative multi-function, electric, combination and steam ovens.

...HOBS

SIEMENS...

Induction cooktop with integrated ventilation unit. FlexInduction adapts the cooking zones to different size cookware for more flexibility. PowerMove Plus enables intuitive control thanks to three heating zones with different temperatures, just by moving the pan.

SMEG...

Utilising cutting-edge technology and constructed only using premium materials including stainless steel, glass, and cast iron. Smeg's extensive range of hobs comprises of gas, ceramic, induction and electric models, which are available in a choice of sizes and finishes to co-ordinate perfectly with Smeg built-in ovens.

V-ZUG...

If you are looking to cook like a professional in the kitchen, creating varied and versatile dishes, then V-ZUG has the ideal combination of appliances for you. The wok and the Teppan Yaki, as well as the induction hob, can be easily combined and built into your kitchen. The Fusion hob includes an integrated hob hood, which draws down vapours right beside your pans. And thanks to the OptiLink function, the hob hood and the hob can communicate with each other to function completely automatically. This is sure to be a firm favourite with anyone who appreciates plenty of headroom when cooking and intuitive touch controls.

... EXTRACTION TECHNOLOGY

MIELE...

The TwoInOne brings together exceptional technology with PowerFlex cooking zones and an automatic extractor with intuitive operation. The TwoInOne overcomes many challenges when planning a kitchen. This hob is incredible for speed and precise control.

FALMEC...

Offering discreet and silencing hoods, allowing you to work, study, chat and listen to music while cooking, without interference.

The technology maintains excellent extraction performance with minimal visual impact, suitable for open spaces where the kitchen area integrates with ceiling space.

QUOOKER...

With a Quooker in your kitchen, you always have instant 100°C boiling water alongside regular hot and cold. Add a Quooker CUBE to your tank and you will also have filtered chilled and sparkling water all from the same tap.

...TAPS

GROHE...

GROHE taps fuse the latest designs with a host of features that bring real benefits to your kitchen. Exciting designs are matched by exceptional product features, to make time spent at the kitchen sink, a joy, rather than a chore.

...COOLING TECHNOLOGY

LIEBHERR...

Versatile, innovative and integrates perfectly. Available in a large variety of sizes to suit your space. This Liebherr Pantry Fridge/Freezer has a framed door concept with BioFresh technology, LED lighting and an automatic ice-maker in the freezer.

SUB-ZERO...

Famous for their advanced food preservation technology. Refrigerators are built-in for a precise, custom fit within surrounding cabinetry in your home. With both stainless steel and panel-ready finishes available, along with nearly limitless configurations, Sub-Zero offers true design flexibility to complement, anchor, or disappear completely into your décor.

COOLING DRAWERS...

The Sub-Zero 762mm Under Counter Refrigerator/Freezer Drawers bring convenient refrigeration to any room in your home. The ICBID-30CI holds a combined 97L of food and keeps it fresher for longer with smart-touch technology that lets you control temperatures from -21°C to 7°C. It also contains an internal ice maker.

SAMSUNG...

Samsung Fridges are modern, minimalist and contemporary. Discover a design that's energy efficient and cools to every corner helping food to stay fresher for longer. Samsung refrigerators are not only beautifully designed to be spacious and versatile, they also include clever features that help make your life easier.

CORNER FRIDGES...

Utilise awkward storage spaces in your kitchen with the Corner Fridge solution. This refrigeration integrates into any style of kitchen furniture and with its impressive 1,300L capacity enables it to provide a central source for an entire household's food and drink requirements. The air circulation technology minimises food waste by keeping food fresher for longer, and has A+ energy efficiency.

WINE COOLING & STORAGE

LIEBHERR...

Properly stored, wine continues to develop its natural flavour in the bottle and, on reaching peak maturity, the wine will be deeper and more complex. Liebherr's wine storage cabinets create ideal conditions for in-bottle ageing, providing a climate similar to a wine cellar. A constant temperature is maintained throughout the cabinet interior, making them ideal for long-term storage and for the ageing of fine wines.

SUB-ZERO...

Sub-Zero wine preservation protects against the four enemies of wine: heat, humidity, light and vibration. Available in several sizes, the units have up to three independent preservation zones, so you can store all your wines in one convenient system.

... ECO WASTE DISPOSAL

INSINKERATOR...

New technological advancements in water efficiency and noise reduction in newer waste-disposal units have now made this a viable option for Irish households, reaping many benefits for the environment. The InSinkErator Evolution breaks down food waste using a built-in grind chamber and washes the waste down the drain resulting in only tiny particles which can be easily processed by local water treatment centres.

...DISHWASHERS

MIELE...

The ultimate efficiency brand for Dishwashers. Using only fresh mains water, this feature has reduced water consumption by 85% over the last 30 years. Electricity consumption is also reduced to an all-time low with the ECO-programme, achieving energy consumption values of only 0.83 kw/h.

NEFF...

The renowned brand for quality dishwashers. Designed to be completely invisible behind your chosen cabinetry, Neff dishwashers are incredibly quiet, yet packed with ideas to make cleaning as effortless and efficient as possible, with Chef 70° to get rid of the most stubborn stains.

V-ZUG...

Whether getting party dishes clean again in a record 15 minutes or removing baked-on food, Adora dishwashers from V-ZUG offer innovative programmes to meet every need. With patented SteamFinish technology, you can expect sparkling clean results every time.

...LAUNDRY

MIELE...

Invest in quality, durability and innovative features. Miele test their appliances to last the equivalent of 20 years' use, which means many happy years of reliable service.

SIEMENS...

Designed to make laundry as easy as possible. Each Siemens washing machine will save you time and energy with a variety of programmable functions and load capacities that are ideal when it comes to your specific needs.

V-ZUG....

The V-ZUG RefreshButler cares perfectly for delicate fabrics, by neutralising unwanted odours. Clothes are dried gently and refreshed with steam, thanks to the hygiene programme - removing 99.99% of all bacteria and germs. In addition, the anti-crease function significantly reduces creases from wear. Dries up to 5 kg laundry gently without any physical movement. Appliances can be free-standing or integrated into a cupboard. Developed and manufactured in Switzerland.

In-House Appliance Centre is part of Irish-founded, Chadwicks Group, Ireland's leading builders merchants which operates with 51 stores across the country. Geraldine O'Donoghue, a well-known and long established appliance expert, joined the business in 2010 to manage the In-House Appliance Centre brand based inside The Panelling Centre showroom at Deansgrange Business Park, Co. Dublin.

In-House Appliance Centre is committed to providing the most innovative, premium quality and energy efficient appliances. The Showroom has a huge range of top end brands on display, such as: V-ZUG, Wolf, Sub-Zero, Ilve, Siemens, Neff, Smeg, Miele, La Canche, Quooker, Grohe, Liebherr and endless options available on custom-order!

Commenting on the latest appliance trends that are here to stay, Geraldine said: "It's very interesting to see the trends which are appearing in kitchen appliances and how they reflect a societal shift in values about the environment, nutrition and space. When you've been in the business as long as I have, you come across the wackiest and most wonderful trends, but I can tell which ones are here to stay. When it comes to integrated appliances, combination steam cooking and effective waste disposal, these are the trends I would recommend my customers to invest in. I have decades of experience in premium appliances and as I always say, you wouldn't expect a perfect cake from a poor-quality baking tin so don't scrimp on kitchen equipment - it's the best investment you'll ever make."

For experienced advice and guidance to help you choose the most suitable appliances for your home or building project, make an appointment with Geraldine at in-house@panellingcentre.ie or call **01 268 6996 (select option 4)**. You can be assured of her best attention by recommending the most appropriate models from our entire offering, giving you the best price to match your needs.
